

**AMERICAN  
SOCIETY FOR  
MICROBIOLOGY**

## **Scientific Career Development Workshop for BSc/MSc/PhD students and post-doctoral scientists**

**American Society for Microbiology's** Workshop is a half-day event providing early-career scientists with an in-depth discussion and training in topics important for succeeding in a scientific career in life sciences. ASM's invited speakers will address in their presentations the key scientific career transition junctures, such as:

- **initiating and pursuing work in a PhD project,**
- **transitioning from a graduate student to a postdoctoral study,**
- **building and managing the first own research group.**

Covering all scientific career levels, this training event is designed to address the most important gaps in the professional development of Ph.D. students and young PostDocs in Poland.

### **CONFIRMED SPEAKERS:**

**Prof. ADAM JAWORSKI (Poland):**

*Planning a scientific career path  
for PhD students*

**Dr RIIKKA IHALIN, Adjunct Professor  
(Finland):**

*Phase transition: from doctoral  
to post-doctoral*

**Dr LUIS A. RÍOS-HERNÁNDEZ,  
Associate Professor (USA):**

*Teaching in Paradise - my experience  
as an Associate Professor and a Principal  
Investigator at the USA-Territory University*

**REGISTRATION FEE: \$20 \***

**BONUS:** fee includes ASM's student/postdoc membership for the rest of 2013 and for the whole 2014 allowing for access to ASM's grants and other member-only benefits!

\* Workshop is free of charge for current ASM members.

**To register,** send an e-mail to the ASM's Young Ambassador to Poland, Joanna Karczewska-Golec, at [asm.workshop.poland@gmail.com](mailto:asm.workshop.poland@gmail.com) with your name, email address and ASM member number (if applicable).

**Registration deadline: November 30!**

**December 05, 2013**

**10.30-13.00, Wita Stwosza 53  
Main Library of the University of Gdansk**
